Online Provider Enrollment Applications Begin Collecting Drug Enforcement Administration (DEA) Information

As of August 3, 2020, Online Provider Enrollment applications will begin collecting effective and end dates for the provider's Drug Enforcement Administration (DEA) number, if applicable.

The DEA Number, Effective Date and End Date will always be required for Pharmacy providers - provider type 28.

All other provider types will need to answer the question: "Do you have a DEA Number to Prescribe, Dispense, Administer, or Procure Controlled Substances?" If the answer is "Yes," the DEA Number, Effective Date and End Date will be required fields in the application.
